Mendota's environmentally friendly, sealed combustion, direct vent fireplaces with the BurnGreen® system are designed to meet exacting governmental EPA standards, as well as national LEED® and NAHB guidelines for high efficiency and low emissions.

Products, specifications and prices subject to change without notice. Images shown may differ from actual home installations. Consult our Owner's Manual for all final dimensions. Mendota products are manufactured in the U.S.A.

THE MENDOTA FIREPLACE EXPERIENCE

MENDOTA®

NORTH AMERICA'S LUXURY FIREPLACE

DXV GAS FIREPLACES

Luxury that lasts

Trends may come and go, but the classic design of the ever-popular Mendota DXV Series fireplace is a timeless addition to any home. While many gas fireplaces are stamped out in a cookie cutter approach, each Mendota DXV fireplace is handcrafted to give you a lifetime of comfort and durability.

This is the fireplace that permanently established Mendota as the leader in uncompromising quality, craftsmanship and performance. Our DXV fireplaces have won Best of Show honors at the National Hearth Products Association Expo and have been listed as a Best Buy value by Consumers Digest.

The classic DXV fireplace combines with Mendota's BurnGreen technology to provide the ultimate in style, convenience and green efficiency.

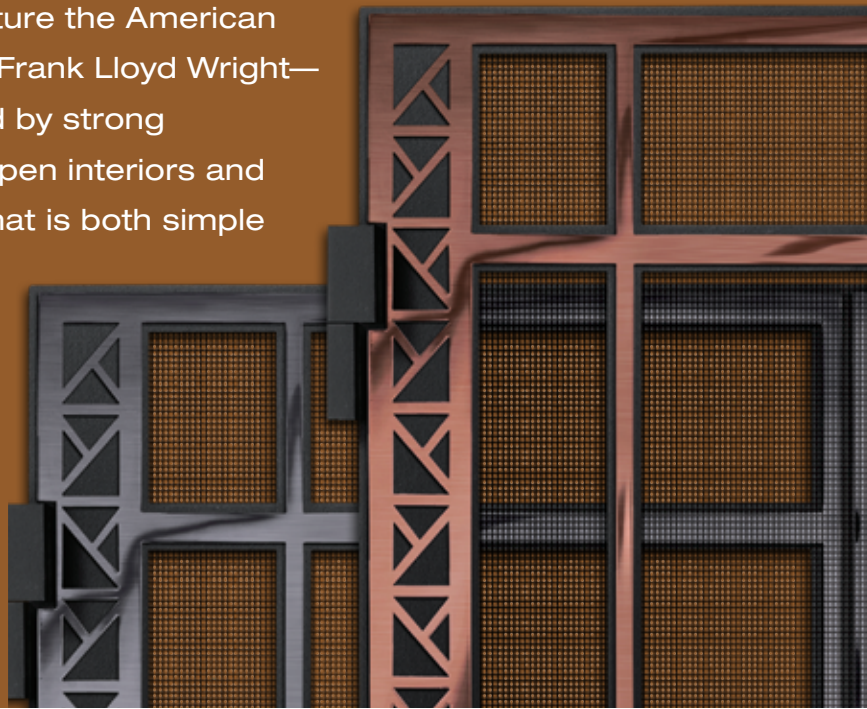

When you experience something this good, you don't want it to ever end.

Prairie

Prairie doors capture the American style of architect Frank Lloyd Wright—a look exemplified by strong horizontal lines, open interiors and an inviting style that is both simple and honest.

Available in Black finish with optional lattice overlays in Antique Copper, Gold, Gun Metal, Swedish Nickel and Vintage Iron finishes with permanent firescreens

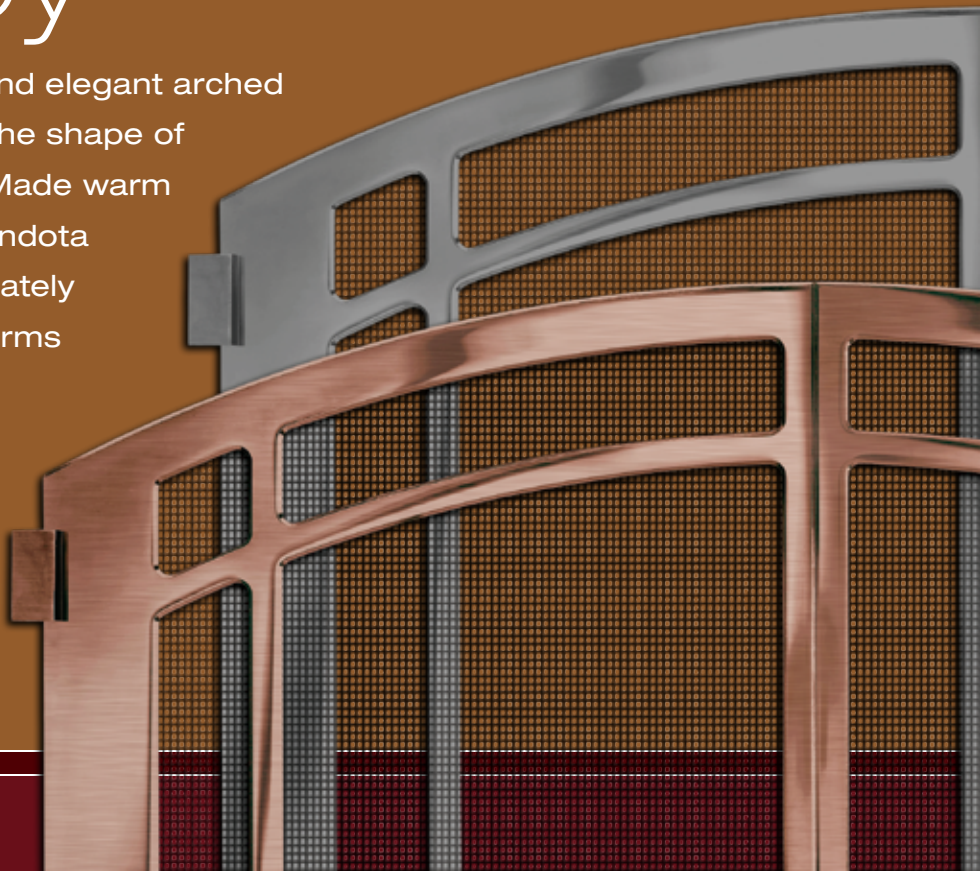

Bentley

With its handsome lines and elegant arched doors, Bentley redefines the shape of luxury in today's homes. Made warm and welcoming by the Mendota fire, the Bentley's regal, stately presence instantly transforms your room.

Available in Black, Antique Copper, Oil Rubbed Bronze, Swedish Nickel and Vintage Iron finishes with permanent firescreens

Not all fronts, doors and finishes are available on all models.

Focus on the fire

Mendota's beautiful log fire is the result of years of research and development. It begins with careful selection of actual field logs, hand-molded to capture every intricate detail. Each log is hand-painted using a palette of eight colors and arranged to create the exact look and feel of a wood log fire in its most beautiful burning stages. The end result is a true work of art.

Frame it in style

A big part of the Mendota fireplace experience is choosing just the right front, doors and accessories. The excitement of seeing how their shape and color come together to transform your room.

Whatever mood you wish to create—sophisticated, subtle, bold or rugged—Mendota has created a beautiful, precision-crafted front to frame your fire and enhance your unique style.

Design it online

Andover

Nothing re-creates the mood of traditional New England like Mendota's popular Andover design. Classically styled doors combine with artistically hand-molded logs to create the illusion of a woodburning fireplace.

Available in Black finish with optional lattice overlays in Antique Copper, Gold, Gun Metal, Swedish Nickel and Vintage Iron finishes with permanent firescreens

Grace

Sleek and sophisticated, Grace's true beauty lies in her ability to change her look at a moment's notice. Options such as accent corners, accent bars and dome rivets let you create the hearth you've always envisioned.

Grace fronts, optional accent corners and dome rivets available in Black, Antique Copper, Brushed Chrome, Hammered Leather, Oil Rubbed Bronze, Swedish Nickel and Vintage Iron finishes with permanent firescreens

Tuscany

Imagine sitting in front of a roaring fire after enjoying a delightful walk through the vineyards and small villages of the Chianti region of Tuscany. Mendota's Tuscany front is a stylish reminder of the warmth and charm of old world Italy.

Available in Black, Black Onyx, Antique Copper and Gold finishes

Millennia

Modern styling creates a sleek and highly polished appearance for your hearth. A range of color options lets you customize the Millennia front to perfectly match your style and taste.

Available in Black, Classic Brass, Full Brass and Contemporary Silver finishes

Deerfield

The Deerfield front features vintage cast scrolls, the age-old symbol of warmth and hospitality. It adds a timeless dignity to any room.

Available in Vintage Iron finish

Not all fronts, doors and finishes are available on all models.

DXV35 DT3 fireplace with the BurnGreen system

DXV45 DT3 fireplace with the BurnGreen system

Green efficiency for a timeless favorite

The popular Mendota DXV fireplaces with their beautiful, award-winning log fires and their exciting array of elegant fronts can now be combined with the convenience and environmentally friendly features of the BurnGreen burner/remote control system—so you'll never have to compromise style for function.

A smarter, greener family fireplace

Mendota DXV fireplaces with the BurnGreen system are good for your home—and the environment.

- The direct vent design uses 100% outside air for combustion, preserving indoor air quality and maximizing combustion efficiency.
- Mendota fireplaces also produce less than 1% of the harmful particulate emissions of woodburning fireplaces.

BurnGreen means burning smarter, giving you choices to conserve fuel and help the environment.

Your home deserves a Mendota

And there's a romantic Mendota that's just right for your home

The purchase of a gas fireplace deserves thoughtful consideration. Whether you're building or remodeling, it's important to help your builder pick a fireplace that complements your home and your style.

Remember:

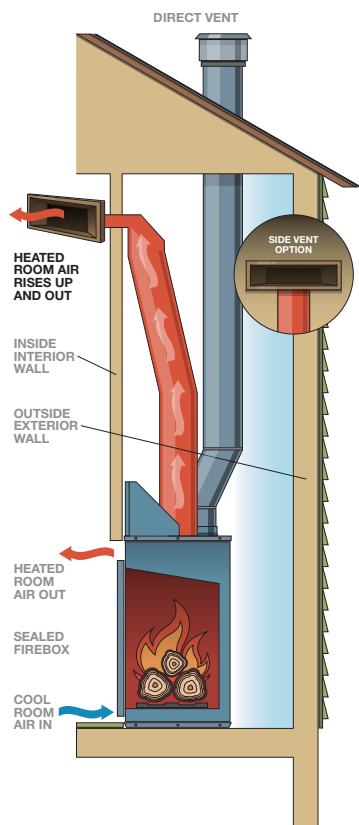

- A fireplace is a once-in-a-lifetime purchase that's permanently installed in your home. It's not something that you replace every so often like a car or television.
- A fireplace is the center of attention in the most important room in your home—something you'll see and enjoy every day.
- A fireplace is a product from which you expect a high degree of performance and safety.

Take control of your heat

With your Mendota gas fireplace, you're in control thanks to our industry-leading fireplace heat management solutions. Mendota Heat Transfer Systems take heat from your fireplace and move it where you want it — all hidden from sight within your walls.

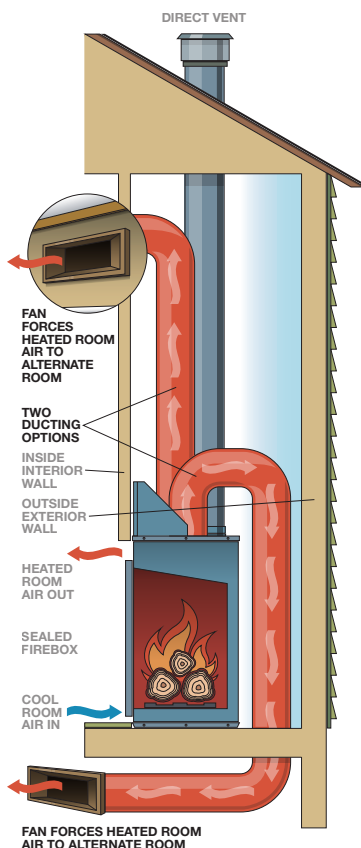

MENDOTA COOL WALL

Mendota Cool Wall redistributes warm air above the fireplace to take heat off of walls and nearby areas—while the firebox still delivers focused warmth. Plus, create even more design possibilities for your home with the option to place your TV or artwork as close as 15" above the fireplace with the convection fans turned OFF.*

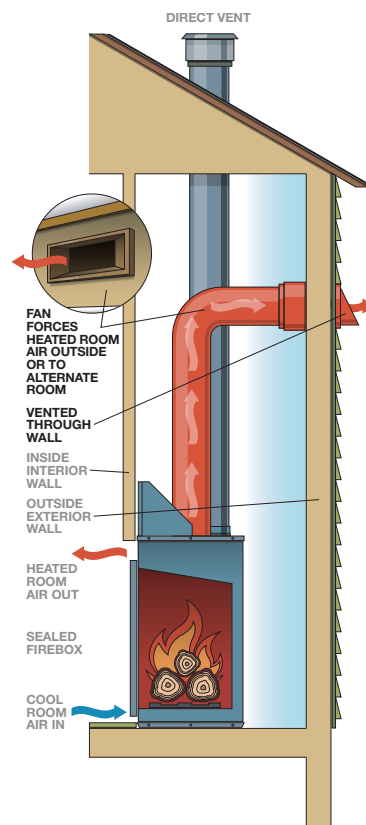

VERSIHEAT

Versiheat moves a portion of heat to the rooms you use most. Warm air travels up to 25' from the fireplace through ducts with their own blowers and thermostats. Mendota fireplaces can use up to two Versiheat kits to transfer heat to up to two other rooms on the same floor, upstairs or downstairs.

FLEXHEAT

With the most air flow capacity, FlexHeat redirects heat to another room or even outside—so you can use your fireplace in the summer or warm climates without unwanted heat. Specific Mendota fireplaces can use a FlexHeat kit to transport up to 95% of convection heat to where you want it.

*NOTE: Running the convection fans will increase wall temperature. The TV can be mounted as low as 15" above the fireplace with the convection fans turned OFF. To use fans with Mendota Cool Wall installed, ensure your TV or decorations are placed 24" or more above the fireplace.
